TopLine Banner Frame

Rooftop Banner Display Frame

There is no more effective way to display your exterior banners than above the roof.

And there is no better way to do that than with Voxpop's TopLine Banner Frame for Carl's Jr.

It creates big bold impact and pulls customers off the street.

Displays your 4x16 banners above the roof

Since we introduced our TopLine Frame to the Carl's Jr. family in 1990, hundreds of restaurants have benefited from the visibility and effective merchandising the frame creates.

Exterior banners are your most effective tool for broad merchandising impact, noticeable from blocks away. The Carl's Jr. TopLine Frame maximizes this valuable tool.

What makes the TopLine Frame so good?

The sturdy steel base frame holds special "arms" that grip your banner. Then, a mechanical tension screw winds the banner drum-tight. The result is a perfect display that looks like a professional billboard!

Mechanical tensioning keeps banners tight!
