

HangTight

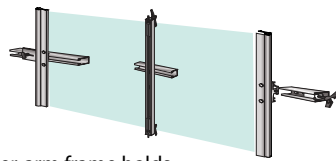

Wall or Fascia Banner Display Frame

HangTight banner mounting frames create perfect, sign-like displays. The exclusive mechanical tensioning system pulls them drum tight - eliminating droops and fly-aways forever! The result is 100% effective merchandising the entire promotion - every promotion!

HangTights come in 4 sizes to display banners from as small as 3x6 to as large as 4x24. To install, just screw several small tracks onto your wall or fascia strip - that's it!

Basic frame holds banners up to 12'

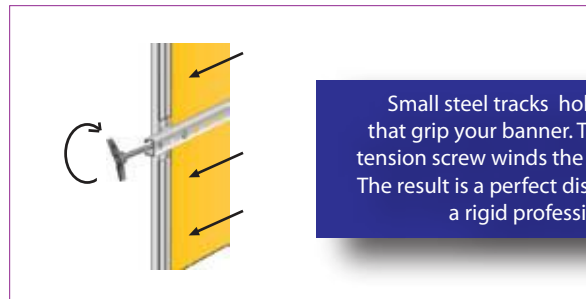

Center-arm frame holds banners 12' up to 24'

- ✓ Maintains drum-tight banners that are 100% readable the entire promotion. No droops, sags or fly-aways
- ✓ The hardware is 99% concealed by the banner. All your customers see is your message!
- ✓ Designed for lifetime use - a one-time investment for years and years of functional performance

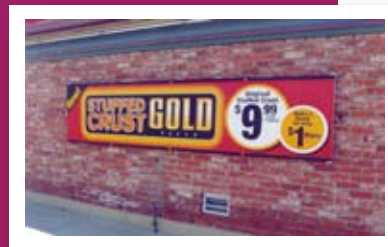

What makes the HangTight Frame work so well?

Small steel tracks hold special "arms" that grip your banner. Then, a mechanical tension screw winds the banner drum-tight. The result is a perfect display that looks like a rigid professional sign!

Before.

After.

HangTights are available in two arm styles. The "Clamp Bar Style" arms grip any banner made or sewn in any way. The lighter and less expensive "Tongue & Groove" style models require banners sewn with pole pockets on the left and right sides.
