

LollyPOPS!

Wind-activated ground displays

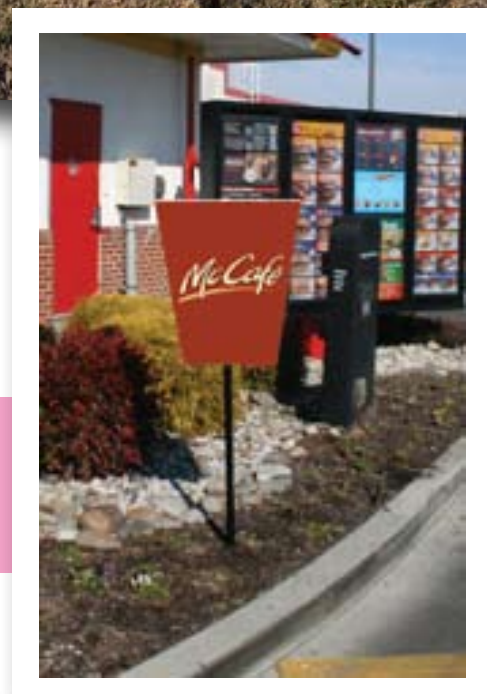

LollyPOPS are a simple and economical way to display coroplast signs or shapes with added advantages: the signs swivel with the wind to attract attention, and the sturdy mounting system ensures a professional looking overall display!

Stand out from the crowd with this new and unique P.O.P. display system from Voxpop.

Wind-activated swiveling action!

- ✓ Unique display idea for coroplast POP
- ✓ Graphic swivels with the wind, attracting attention
- ✓ Great idea for die-cut shapes
- ✓ Simple no-tools installation and POP changes

We don't make your P.O.P. We make it WORK!!!

LollyPOPS are perfect display vehicles for die-cut shapes!
